Barcode Printers

Barcode Printers Set-Up

In general, Barcode Printers are usually attached to LPT2 and set-up the same way that you would set-up a receipt printer. See pages _____

> **Note:** *Barcode printers will not print a test page unless the printer is in* **DUMP MODE.** *To put a barcode printer in* **DUMP MODE** *you must hold down the* **PAPER FEED BUTTON** *while powering on the printer. Once the printer is in dump mode, you will be able to print a test page.*
